Maintenance, Operations, and Safety Audits

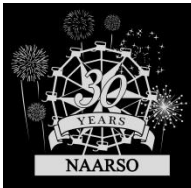

Increase safety and efficiency by scheduling a third-party review of your maintenance program!

Dynamic Attractions' AIMS and NAARSO Certified Inspectors can perform a customized, detailed maintenance and operations audit of your park to include the following:

- Perform hands-on inspection of each ride
- Observe each ride in operation and note any potentially unsafe practices
- Review ride downtime and incidents
- Review preventative maintenance and rehab procedures

Once the audit is complete, Dynamic Attractions will provide a detailed report of our findings along with pictures and recommendations for improvement.
